

# Singing BOOK 4 Sherlock

## See Me

### **Verse 1**

It's the moment I've been waiting for,  
Know the lyrics and rehearsed the score;  
All I have to do is cross the floor,  
And take a deep breath and drop my jaw.  
But my stomach feels queasy and  
my throat is sore.  
Ev'ry second lasts for evermore,  
Heart is beating with a thund'rous roar;  
Suddenly it's go, I cross the floor,  
I'm ready to burst as my spirits soar.  
And I take a deep breath as I count to four.

### **Chorus**

See me,  
Standing in the light,  
See me,  
Spread my wings in flight,  
See me,  
Sailing like a ship at sea;  
See me,  
Standing on my own,  
See me,  
Steady as a stone,  
See me,  
Singing all alone;

See me.

### **Verse 2**

Can't believe I really made it here,  
Thought my nerves would never disappear.  
Train was late, I nearly died of fear.  
And Mum got worried so she shed a tear,  
And she kept on asking,  
"Have you got the right gear?"  
But we made it, and I'm really here,  
After training so hard all the year.  
It's my dream that's made me persevere,  
My dream that's always been so  
bright and clear.  
For this moment when the audience  
applaud and cheer.

### **Chorus**

See me. (*Repeat 3 times*)
